

KITCHEN & FOOD SERVICE SOLUTIONS: SINK AND FAUCET DISPENSING

Sink dispenser technology re-imagined and re-invented

Introducing the new SuperSink dispenser. It works like a ball valve dispenser, without many of the service call issues related to them. Using DEMA's patent pending PVA water valve design, we've developed a low profile sink dispenser ready for the most demanding of installation environments. Designed for DEMA FloRite™ technology, SuperSink provides dilution confidence in your detergents and sanitizers regardless of common water pressure fluctuations. SuperSink is loaded with other great features like quick access cover, easy yet secure activation, integrated strain relief and much, much more. It's time for your sink dispenser to do more for you. It's time for the DEMA SuperSink.

Features & Benefits

- ◆ Sleek modern appearance great for open air kitchens
- ◆ Durability of stainless steel with rounded edges found in molded designs
- ◆ Industry first, pilot activated water valve has superior performance to ball valves
- ◆ Significant advantages over traditional sink dispensers
 - ◆ Easier to install and service with quick access cover and plug-n-play water valve components
 - ◆ Superior user features with easy grip valve activation
 - ◆ Designed to eliminate common accidental misuse with positive on/off water valve
- ◆ Can be equipped with DEMA FloRite technology
- ◆ Branding and chemical label area maximized for correct product selection and training
- ◆ Accepts any common water inlet configuration: GHT, Barb, Compression, Quick Connect and more

* Equipped with DEMA's superior Action Gap or air gap backflow preventers to meet local health code requirements

Operational Features:

Positive on/off activation with simulated ball valve feel for user familiarity

Easy snap on/off handles allow for activation with gloves on or off

Quick access components located under snap-in cover w/ optional security screws

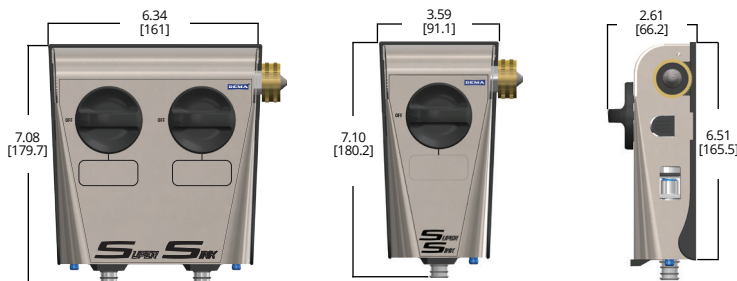

Water inlet options include: GHT, compression barb, John Guest

Large branding area allows for easy chemical identification and training information

Modern stainless steel design excellent for open air kitchens

Integrated hose strain relief to secure all components from the toughest use

Dimensional Information:

- Comparable size to traditional sink dispensers
- Modern, elegant look and feel gives appears of smaller size
- 100% smaller in depth when compared to other non-ball valve dispensers
