

ULTRADUTY™ SAFETY TAGS

Durable printable safety & LOTO tags

Avery UltraDuty Safety & Lockout Tags

Meet OSHA Requirements

Meet OSHA Lockout Tagout requirements for safety de-energizing equipment before repair or maintenance work. Also quickly address temporary hazard warnings by printing tags on-site as needed.

Strong Material

Durable 11 mil plastic tags with 50lb pull strength. Ideal for outdoor worksites, manufacturing plants, industrial facilities and anywhere an ultra durable tag is required.

Highlights

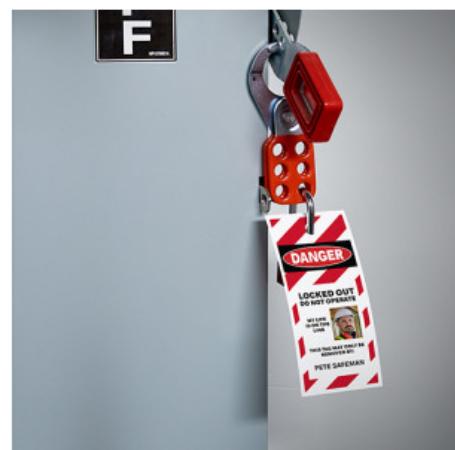

Product Features

- 50lb pull-strength
- UV resistant for up to 2 years
- Resistant to chemicals (e.g. IPA, phosphoric and cleaners, ethanol)
- Laser printable and had writable with permanent markers and ball point pens

Free Templates

Customize with free OSHA-compliant templates at avery.com/customize

Keep your employees safe!

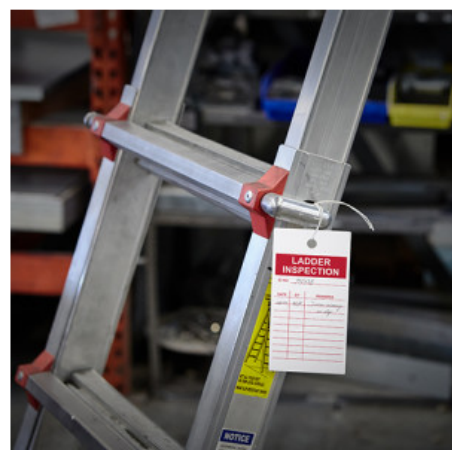

Lockout Tagout

Print lockout tags on a laser printer that meet OSHA's 50lb pull strength requirements.

Safety Tags

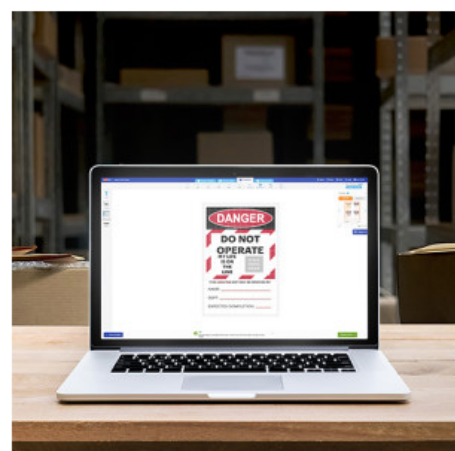

Quickly communicate temporary hazards by customizing and printing durable OSHA-compliant safety tags.

Inspection Tags

Create inspection and maintenance tags and write on your tags using a permanent marker or ballpoint pen.

Easy to customize and print

Customize

Simply use the free blank or OSHA-compliant pre-designed templates and customize as needed. Add photos, company logos and more.

Print

Print using a standard laser printer, and save your projects to your MyAvery cloud account or your computer.

Apply

Apply your safety and lockout tags to warn of hazards or as part of your LOTO program. 50lb pull strength meets OSHA requirements
