NEW!

ERGOtec® GLASSCRAPER

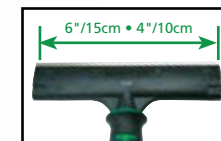

DURABLE • ERGONOMIC • EFFICIENT

A solid sturdy scraper for tough jobs. Efficient and effective on larger surfaces. Complete with 4"/10cm or 6"/15cm blade.

Ergonomic Design

- Ideal for cleaning large surfaces.
- Slip-resistant bi-component grip fits comfortably in hand.
- Ideal for all weather conditions.

Efficient

- Large scraper head, optimal for removing heavy dirt soiled areas.
- Available in 6"/15cm and 4"/10cm width.
- Covers more surface area in less time.

Safe Blade Change

- Blade is held securely in place with a sliding insert.
- The insert locks safely into scraper head
- Change or rotate blade at the push of a button.

Safe Storage

- Protective cap safely locks in place to prevent injuries when not in use.

Efficient 6"/15cm • 4"/10cm Blade

- Perfect for removing paint, stickers, and adhesives.
- Reversible razor sharp blade made of coated carbon steel.

NEW!

Expert Tips – How To Scrape:

- Check if glass is scratch-resistant and suitable for scraper use. (for example do not use on: Plexiglass, crown glass, solar glass, safety glass (ESG) etc..., Follow the manufacturer's care instructions.)
- Perform a scrape test in advance on a hidden section.
- Check the blade for damage and change it, or reverse it if necessary.
- Always scrape in one direction! Never pull the scraper back - scratch risk!
- Start with a wet surface!
- Adding a cleaning agent, such as "Unger liquid", is best.
- Approach edges slowly so you don't cut caulk or damage frames.
- Apply even pressure holding the blade flat against the glass.
- After scraping, check if adhesive or stucco residues are stuck to the blade. If necessary, change or reverse blade.

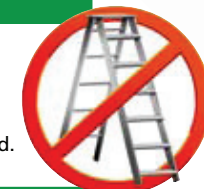

Blade Info:

- Made of extra-sharp, coated carbon steel.
- Double-edged, double honed blades.
- Two sharp blade edges for twice the use.
- Both sides lacquered for longer rust protection.
- Individually wrapped in wax paper which protects from rust and prevents blades from sticking together.
- Safely packed and stored in convenient plastic dispenser.
- CAUTION: Unger blades are razor-sharp. Always handle with care. Use caution when changing blade!

Locks Onto All Unger Poles

- For work in high, hard to reach places.
- Securely locks onto ErgoTec® locking cone which reduces the risk of dropping the scraper.
- Safe operation from the ground. No ladder required.
