Restroom Cleaning

Watch the
BETTER_x Restroom
Cart Video

Using tools that are ergonomic and a process that is intelligently designed, workers achieve a result that is effective and hygienic.

Our restroom cleaning system gives you the tools to meet that goal each and every day. All equipment is color-coded in red to keep bathroom germs from spreading by cross-contamination.

RESTROOM_{RX}

A HIGHER LEVEL OF CLEAN

BETTER_x CLEANING SYSTEM

Introducing the first janitorial cart developed by custodians to help them work faster, safer, and better than ever before.

The BETTER_x Cleaning System is comprised of three parts: an innovative restroom cart, advanced floor care tools, and best in class cleaning accessories.

Quality Tools for Smart Cleaning™

Restroom Cleaning **BETTER_x** Cleaning System

RESTROOM_R A HIGHER LEVEL OF CLEAN **X**

Unger is the first to develop a completely coordinated system that significantly improves the quality of clean, worker safety, and productivity. A group of frontline professionals that use the tools of the trade are responsible for developing the **BETTER_x Cleaning System**. Every single element has been custom designed to maximize productivity and minimize inefficiency.

DRIP TRAY

**PROTECTS FLOORS AND
CARPETS FROM STAINING**

The base of the cart also acts as a drip tray catching excess liquid, so nothing ever drips on restroom or hallway floors.

ERGO HANDRAIL

**SAFELY MANEUVER
THROUGH DOORWAYS**

No matter which side of the cart you're on, it can be pushed and pulled with ease. The handrail allows you to maneuver the cart in and out of restroom entrances quicker and easier.

STORAGE MODULE

**ELIMINATES TRIPS TO
SUPPLY CLOSET**

The effort it takes to return to a supply closet to restock supplies can waste more than time. With an expanded storage module, you'll substantially limit trips to the supply closet. Even eliminating one trip a shift increases productivity.

CLIP SYSTEM

SECURELY ORGANIZES TOOLS

You'll quickly see the beauty of the system work when you discover that every tool in the system has a designated position on the cart. Tools are always where they need to be, and always clipped on securely.

NARROW FOOTPRINT

**NOTHING STICKS OUT BEYOND
BASE OF CART**

The narrow tool tower design allows all tools to remain within the boundaries of the cart.

CLEANER_x Floor Cleaning System

Black light experiment reveals the advantages of using microfiber flat mops vs. cotton string mops.

After cleaning with Unger's Microfiber Mop and Dual Bucket, all soils are captured and removed from the floor.

After cleaning with a traditional string mop and single bucket, remaining soil appears neon yellow.
