

Natural Blue & Purple!

b'Lure Blue Matcha Tea Powder is made from 100% Butterfly Pea Flowers - Naturally bright blue in color and mild in flavor. We only select the blue petals and not the green base from each flower for less blue matcha required as an ingredient and deeper color options.

Blue Matcha works in suspension which is key for dairy such as ice cream and also yoghurt. And also for breads and biscuits where there is little water. The color will steam out of the matcha and is then bound to the starches in your creation for a stunning visual!

When mixed with food and drinks the color changes from blue to purple as acidic ingredients are added.

B'LURE™ BUTTERFLY PEA FLOWER MATCHA POWDER

- ✓ 100% Natural – Grown Using Organic Practices
- ✓ Handmade in Australia. Flowers sourced from our farms in Thailand.
- ✓ Use to create dramatic and memorable food recipes.
