

LED SIGN

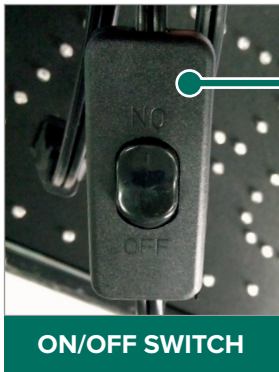

Installation/User Guide

PACKAGE CONTENTS

- (1) LED Sign With Power Adapter
- (1) Hanging Hardware Kit:
 - (1) Silver Hanging Chain

OPERATION

To turn the sign On/Off, use the switch located on the cord.

ON/OFF SWITCH

All sign functions are controlled by the red switch located on the bottom of the sign.

EFFECT SWITCH

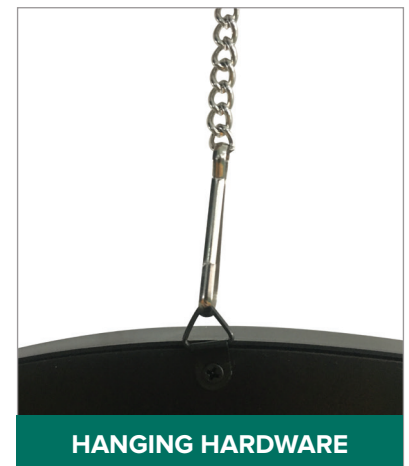

INSTALLATION

- Mount the sign in an area where it can be easily seen by customers with no obstructions. You will need easy access to an electrical outlet and a clear area in the window for the mounting hardware.
- Keep in mind your need to see out the window, and the customers need for security to see in.

CAUTION

INDOOR USE ONLY - Do not install the sign or power supply near areas of humidity or heat.

PREVENT TAMPERING & DESTRUCTION - Do not install the sign where unauthorized personnel can reach, where it blocks entrances or emergency exits, in an area that would block quick access or where it blocks air conditioning or heating ducts for air flow.

HANGING HARDWARE
