| (I) |  | <b>Weight</b><br>1PC                 |
| (J) |  | <b>Split Washer</b><br>2PCS          |

## STEP 1

## DIRECTIONS:

### Step 1

Place table top & spider (A) upside down on a level surface. Use washer (F), split washer (J), and nut (E) to attach threaded rod (C) to the spider (A). Use wrench (G) to tighten. Place column (D) on top of threaded rod (C).

### Step 2

Place base (B) on top of column, threaded rod (C) should stick out of hole in base (B).

Place weight (I) on top of base, through threaded rod (C). Secure with washer (F), split washer (J), and nut (E). Tighten with included wrench (G).

Finally, screw glides (H) into base.

## STEP 2
