

THANK YOU FOR YOUR ORDER!

Please review this proof and ensure the product, logo and colors are correct. The image below is an approximation of the final printed result. Note that color tones on this proof may vary from screen to screen and should not be regarded as the actual printed color. Pantone colors can be matched. If Pantone color is not specified, standard ink will be used. Thin lines and fine details may fill in when printed. For the best print quality, we may have altered your artwork. This may include increasing line thickness, increasing font sizes & removing fine details. We made these changes because we feel you will be happiest with the finished product. Exact placement of logo is not guaranteed unless specified.
