Food Pan Options for HOT or COLD Display

To compliment the EcoServe GN, we offer a choice of robust, chip resistant GN 1/1 dishes. The 2.6" Deep Porcelain Dish has a capacity of 9.4 quarts while the 0.8" Shallow Porcelain Dish is more suited to displaying food such as canapes. The Divided Dish gives chefs the option of displaying two types of food in smaller quantities.

Porcelain is a popular choice for buffet displays everywhere but sometimes commercial kitchens may require a less breakable choice, so we've designed an aluminium dish to suit. Boasting superior thermal conductivity, exceptional durability and resistance to abrasion, this dish has a unique 3-layer reinforced Lotan non-stick surface that can be used for frying, baking and serving making it ideal for use in kitchen to EcoServe buffet.
