

## G.E.T. Care & Maintenance

When properly cared for, G.E.T. products offer a longer commercial service life when compared to traditional materials.

By following the product care instructions below, you can maintain the luster, appearance, clarity, quality, and integrity of your G.E.T. products – saving both time and money, as well as limiting operational uncertainty and liability.

Please feel free to contact G.E.T. Customer Service at (800) 727.4500 with any questions.

### DO

#### GENERAL CARE

1. Handle like any fine dinnerware or glassware.
2. Clean products as soon as possible to avoid destaining procedures and protein build-up.
3. Immediately remove any damaged or chipped products from use.

#### DISHWASHING & DESTAINING CARE

1. To prevent staining or protein build-up, and to maintain luster, it is recommended to rinse products as soon as possible and periodically presoak products before dishwashing.
2. Only use bleach-free sanitizers developed for commercial use.
3. Use an oxygen-releasing compound for any staining.
4. Non-abrasive sponges and woven plastic pads are recommended for cleaning products.

### DO NOT

#### GENERAL CARE

1. DO NOT expose products to heat in excess of 200°F or direct flame.
2. To avoid scratching, it is recommended to avoid use with serrated knives
3. To avoid cracking and blistering from heat, DO NOT use products with ovens, microwaves, heat lamps, or plate warmers.
4. To avoid chipping and scratching, DO NOT strike products with or on any hard surface.

#### DISHWASHING & DESTAINING CARE

1. To prevent chipping and scratching, DO NOT overload dishwasher racks.
2. To prevent scratching, DO NOT use harsh or abrasive scouring products such as steel wool or any metal pads to clean products.
3. DO NOT use chlorine bleach or chlorine-based sanitizing solutions when caring for melamine products.
