## THE TWIST IS A GREENER CHOICE FOR COMMERCIAL AIR-CARE.

FRAGRANCE OILS EVAPORATE LEAVING MINIMAL RESIDUE ON WICK.

TWIST CARTRIDGE IS FULLY RECYCLABLE WITH NO DISASSEMBLY REQUIRED. JUST TOSS IN THE RECYCLING BIN.

TRUE PASSIVE AIR-CARE. NO BATTERIES OR FUEL CELLS OF ANY KIND REQUIRED FOR OPERATION.

The F-MATIC Passive Air System has a NEW Twist! Using the same premium, VOC-compliant fragrances for which we're known, we designed a cartridge that is completely spill-proof after activation. No wrapper! Twist activation is nearly effortless with our patent-pending, twist and click execution, an audible CLICK signaling that the cartridge is activated and sealed against leakage. The Twist utilizes our reliable, gravity-fueled system that never requires batteries, fuel cells or any other artificial means of power to neutralize odors in up to 6,000 cubic feet of space for a full 60 days. Just like our earlier passive air fresheners, the Twist fits competitors' existing dispensers for an easy switch to our superior product.
