

BEFORE USE

- Wash in hot water, rinse and dry thoroughly before first use.
- We recommend pre-seasoning. Even pre-seasoned cast iron can use some extra protection.
- To season your pan, heat it up on the stove top until its hot, then rub a little oil into it and let it cool.
- Clean it after each use.
- Pre-season as needed.

CLEANING & CARE

- Let pans cool before washing in warm water. Soak first in warm water and detergent to remove burnt on food.
- Always use wooden, plastic or silicone utensils, avoid metal.
- Do not tap the edges of the container & never cut food inside the cookware as you risk scratching or damaging the enamel.
- Use non-abrasive nylon scourers.
- Always dry thoroughly before storing.
- Avoid the use of a dishwasher after every use to prolong the longevity of the product.
- Heating in the oven may cause the metal knobs to change color slightly.
