

NEW BOXER® COUNTERTOP INDUCTION RANGE

Hatco's Boxer® Induction Range has all the same power as our Hatco line of induction ranges, but with no frills. This economy model is simple to operate and has the Magnetic Power System (MPS), delivering the highest power in its class! This unit has all the basics for the rigors of commercial foodservice use, as well as a timer with convenient power and temperature modes.

STANDARD FEATURES:

- Heavy-gauge stainless steel housing with side impact protection for the top
- Large control knob is adaptive, adjusts to user input and has precise control
- Display instantly advises the operator of precise power, temperature (°F or °C) and time control (0 to 1 hour)
- Black, glass-ceramic top is durable and easy to clean - fully-sealed and conformal-coated boards add extra protection against grease or moisture
- Safety and convenience features, such as automatic shut-off, to prevent overheating

NEW RAPIDE CUISINE® COUNTERTOP HIGH-POWERED/HEAVY-DUTY DUAL INDUCTION RANGES

Hatco's patent-pending Rapide Cuisine® High-Powered/Heavy-Duty Dual Induction Ranges offer industry-leading features and true back-of-house power in a commercial kitchen proof package. These dual units are configured either front-to-back or side-to-side to optimize your countertop footprint. The unit features our Magnetic Power System (MPS). This unit has User Programmable Presets (UPP) for repeat menu items, food temperature probes for more accurate cooking, timers, high resolution color displays and convenient power and temperature modes.

STANDARD FEATURES:

- Heavy gauge stainless steel housing with side impact protection for the top
- Eight surface temperature sensors (four sensors per heating element) offer the most accurate control in its class
- Comes with Food Temperature Probes for quicker and more accurate cooking temperature control
- 3-stage programming mode so the operator can create preset programs for consistent and labor-saving cooking cycles
- A fully sealed 0.25" glass-ceramic top with conformal coated boards keeps pan heat, moisture and grease away from internal electronics
- Pan Sense Technology (PST) activates the unit only when a suitable pan is placed on top
- USB ports for downloading updates or adding Modes from our website
