## Instructions

Cut the watermelon in half and set one half aside to enjoy later. (If you're using a small watermelon, you'll only need to cut off the top). Using a melon baller, carve out enough melon balls to line the outer edge of the watermelon. We recommend carving more than you need so you don't run out. Once you have enough melon balls, hollow out the remainder of the watermelon and place in a bowl to enjoy later. Next, shave 24 oz. of ice into a bowl and then transfer the shaved ice into the hollow watermelon. Pour Watermelon syrup over the ice and then line your watermelon with the melon balls. Top the shaved ice with chocolate chips if you desire! Garnish with a drink umbrella and a straw and serve immediately.
