

Hot Water Dispenser

177HWDD2

Whether you are filling insulated beverage dispensers or individual tea cups, use this dispenser to make sure you never run out of hot water.

2 GALLON CAPACITY
WITH REMOVABLE DRIP TRAY

Built to Last

This hot water dispenser is made of stainless steel for a strong, durable product that will last through many uses.

Easy to Use

Made for the commercial environment, this dispenser features a cup clearance of 10" so that you can easily fill tall mugs and servers. Simply pull down the lever to pour.

Sleek Design

With its shining finish, this unit will look professional on your countertop. A great choice for your restaurant or cafe.

Digital Controls and Indicating Lights

This unit comes equipped with a digital faceplate that allows you to precisely set the temperature of your water and lights that indicate when the dispenser is heating, at optimal temperature, filling water, or low on water.

2 Gallon Capacity

The digital thermostat offers a wide temperature range for all applications, ensuring there's enough hot water to go around.

Drip Tray

The removable drip tray catches any stray drops or spills to keep your work area clean and safe.

Quick Access to Product Literature

For ease of use, a scannable QR code is located on the unit. This allows users to access relevant manuals, spec sheets, videos, and more online.
