

How to Use

Best results will be achieved when measuring and using this laundry detergent following these easy steps:

Step 1: SORT CLOTHES - Refer to garment label instructions.

Step 2: PRETREAT - Apply laundry detergent to stained area directly, and pre-soak before washing.

Step 3: MEASURE Laundry Liquid Detergent. Fill cap to line 2 (0.75 fl oz / 22 mL) for medium loads; to line 3 (1 fl oz / 29 mL) for heavily soiled or larger loads.

Step 4: WASH - Turn on washer, add liquid detergent, followed by clothes. For front-loading machine: add clothes, close door, pour detergent into dispenser, choose cycle and start.
