Desired Height

HOW MUCH ICE DO I NEED?

Use the estimates below to see how much ice you might use:

Restaurant	1.5 lb. of ice per meal sold
Cocktail Bar	3 lb. of ice per seat
Water Glasses	6 oz. ice per 12 oz. glass
Salad Bar	35 lb. of ice per cubic foot
Beverage Service	5 oz. of ice per 7-10 oz. cup, 8 oz. of ice per 12-16 oz. cup, 12 oz. of ice per 18-24 oz. cup
Hotel Guest Ice	5 lb. per hotel room
Hotel Catering	1 lb. per customer
Patient Ice	10 lb. of ice per patient
Cafeteria	1 lb. of ice per person

FOR EXAMPLE

If a restaurant averages
250 meals sold in a day:

$$250 \text{ meals} \times 1.5 \text{ lbs.} = 375$$

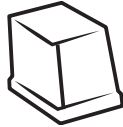

Therefore, that restaurant
is looking for an ice machine
that can make 375 lbs.
or more of ice in one day.
