

Lago Collection

Bring something special to the table with the all-new Lago Dinnerware line – the latest addition to Bon Chef’s Tavola Collection. An updated approach to ceramic tradition, minimalist forms are finished with a unique reactive glaze – revealing a subtle concentric circle patterning to ensure your meal is the focal point. Speckled amber tones contrast beautifully with appealing aquamarine and celadon for a refined, rustic look.

Variations in color are to be expected with this unique glazing technique.
