

Charging Unit

Clamp-On Desktop Charging Unit: KBEP-CGR*

Features:

- Adjustable clamp is compatible with common desk and tabletop surfaces
- Includes AC outlet, USB-A port, and USB-C PD port
- Conveniently charges Chromebooks, laptops, tablets, and smart phones

Technical Specifications:

AC Outlet	110V, 60Hz, modified sine wave, 100W continuous output power, 120W peak output power (10 minutes)
USB-A Port	5V/2.4A (12W)
USB-C PD Port	5V/2A (10W), 12V/1.5A (18W)
Dimensions	8.3" D (10.3" with battery inserted*) x 4.9" W x 5.2" to 6" H (based on clamp setting)
Clamp Capacity	0.7" to 1.5"

*Battery sold separately

Battery

Rechargeable Battery: KBEP-BAT

Features:

- Easily interchangeable
- Recharges using EdgePower Base
- Charging Station (sold separately)
- Includes LED charge indicator lights

Technical Specifications:

Battery Capacity	146.52 Wh (18 cells)
Cell Type	18650 Li-ion battery (2,200mAh at 3.7V)
Life Cycles	500 times (higher than 80% of the initial capacity)
Shelf Life	1 year after first charge
Battery Shipping Classifications	UN 3480
Dimensions	9.1" D x 3.0" W x 2.1" H
Battery Weight	2.75 lbs.
Battery Cell Recharge Time	2 hours

Base Charging Stations

Single Battery Charger: KBEP-BASE1

3-Bay Base Charging Station: KBEP-BASE3

9-Bay Base Charging Station: KBEP-BASE9

Features:

- Charges and stores EdgePower batteries
- IEC plug with 6.5' power cord (3 and 9-bay only)
- Available in Single, 3-bay, and 9-bay configurations
- Fully recharges battery banks in 2 hours
- 3-bay is stackable and expandable
- 3-bay and 9-bay units offer a Kensington Security Slot for theft deterrence

Dimensions:

Single Battery Charger	0.75" D x 3.25" W x 2.25" H
3-Bay Base Charging Station	12" D x 15" W x 6" H
9-Bay Base Charging Station	12" D x 15" W x 13.5" H

Additional Technical Features:

Device Protection:

- Temperature Protection
- Short Circuit Protection
- Self-Balancing Algorithm
- Overcharge Protection

Output Protection:

- AC/USB Outlet Protection
- Power Overflow Protection
- Voltage Underflow/Overflow Protection

Input Protection:

- Charging Overflow Protection
- Charging Circuit Protection

Warranty: Limited one (1) year from date of shipment

Certifications: FCC, RoHS, and ETL

Operating Temperatures:
Charging 32 to 113F (0 to 45C)
Discharge 14 to 131F (-10 to 55 C)

The Cordless Power Solution for Dynamic Work Environments

Kwikboost EdgePower™: Convenient Cordless Charging of Mobile Devices

An office environment reflects a business's core values and operating style. To create a workspace that encourages teamwork and innovation, it's essential that employees leverage mobile devices to form collaborative, functional, and forward-thinking workplaces. Until now, the only solution to provide power to these devices was to run an unsightly tangle of extension cords to their desks and meeting spaces, creating cord clutter and safety hazards.

The KwikBoost EdgePower is an innovative new battery-powered charging station that easily clamps onto the edges of desks, tables, and other standard office surfaces. It creates a flexible, adaptable work environment by providing a neat, convenient, 100% cord-free way to charge laptops, tablets, phones, and other mobile electronic devices.

POWERFUL | RECHARGEABLE | PORTABLE

Benefits:

- Eliminates trip hazards
- Neat, clean appearance
- Fast, plug-n-play operation
- Moves with desk when reconfiguring a room for seamless transitions
- Cost effective
- Easy installation

Charging Capabilities:

- Charges a typical laptop up to 2 times
- Charges a typical tablet up to 4 times
- Charges a typical Chromebook up to 4 times
- Charges a typical smart phone up to 14 times
