

Eliminate Unnecessary Lid Waste by Up to 20%

KleanTake touchless lid dispensers dispense one lid at a time, which can eliminate unnecessary lid waste by up to 20%.

See How Much You Could Save Per Year From Reduced Lid Waste!

Cost per lid	Reduction in Wasted Lids	Daily Lid Usage	Annual Savings	Daily Lid Usage	Annual Savings	Daily Lid Usage	Annual Savings
\$ 0.035	15%	200	\$383.25	300	\$574.88	500	\$958.13
\$ 0.050	15%	200	\$547.50	300	\$821.25	500	\$1,368.75
\$ 0.070	15%	200	\$766.50	300	\$1,149.75	500	\$1,916.25
\$ 0.085	15%	200	\$930.75	300	\$1,396.13	500	\$2,326.88
\$ 0.035	20%	200	\$511.00	300	\$766.50	500	\$1,277.50
\$ 0.050	20%	200	\$730.00	300	\$1,095.00	500	\$1,825.00
\$ 0.070	20%	200	\$1,022.00	300	\$1,533.00	500	\$2,555.00
\$ 0.085	20%	200	\$1,241.00	300	\$1,861.50	500	\$3,102.50

*Calculations above are based on operating days of 365 days/year. Results vary by user. KleanTake does not guarantee cost savings but offers examples of what savings could be based on customer reporting and different lid costs and annual lid usage.

Did You Know?

Hand/lid contact can transmit serious sicknesses such as:

- Acute gastroenteritis (AGE)
- E. coli
- Common cold/flu viruses
- Bacteria skin infections (ex: staphylococcus)

According to a 2020 CDC study, 56.7% of Americans claimed they don't wash their hands after coughing, sneezing or blowing their nose. If you have a traditional lid organizer, chances are germs are being spread to your lids!

Helps Prevent Spread of Germs

KleanTake touchless lid dispensers offer customers peace of mind with single and sanitary lid dispensing. Each lid is kept fully contained and untouchable, preventing the spread of germs/sickness among patrons and staff.

Features

- Simple motion sensor activates the dispenser with a wave of the hand
- Easily reload lids in seconds without touching them with clear, removable gravity tube; buy a spare gravity tube to keep on hand as a backup for even quicker refilling
- Small 8" x 14" footprint optimizes countertop space, while its non-slip feet keep the unit secured
- Each unit comes with lid type sticker labels for easy identification
- If a child puts their hand inside the unit, a sensor will temporarily disable the dispensing mechanism for safety
- Dispenses a single/sanitary lid every 4-6 seconds
- Available in battery operated or plug-in models
