Subject: Surface Cleaning & Care Recommendations

Please follow these guidelines for cleaning Perfect Tables- Powder Coated surfaces.

1. Using a pump spray bottle, apply a normal amount of cleaner onto a clean micro-fiber or paper towel.
2. Wipe the desired area until dry.
3. Try to avoid a spray directly onto the surface or let sit un-wiped for an extended period.

The following cleaners have been tested and verified for use on the powder coated surfaces:

- Mild-Soap & Warm water
- Windex Multi-Surface Disinfectant
- Windex All Purpose cleaner
- Any cleaner not listed above should be applied to a non-visible area before use on the entire surface. Any adverse effects (discoloration, etc) will become evident

If you would like more information on the above or have any questions, please feel free to contact Perfect tables.
