

Stainless Steel Countertop Pump Dispensers w/ Plastic Pumps

Serve your condiments efficiently with ServSense™ 1 qt. or 2 qt. stainless steel countertop condiment dispensers with plastic pumps. These heavy-duty units are made out of durable stainless steel and include non-skid feet for stability on your countertop. The brushed finish on the 304 stainless steel body hides fingerprints and wear, which provides a professional presentation.

Each pump dispenses accurate 1 oz. portions. With metered dispensing of condiments, sauces, and syrups, these ServSense™ pumps reduce wasted product through precise portioning. They are perfect for dispensing condiments such as ketchup, mustard, or barbecue sauce that have high viscosity. These dispensers are not recommended for thin syrups, sauces, and condiments that lack viscosity. ServSense™ pumps are a professional solution for your establishment, designed for high volume use. These units include plastic fountain jars and plastic pumps with lockable pump heads. All you need are the condiments!

651PDS2QT1P

- Single 2 qt. SS Condiment Dispenser w/ 1 Plastic Pump (2 qt. Total)
- 7 $\frac{7}{8}$ "L x 5 $\frac{1}{8}$ "W x 13 $\frac{3}{8}$ "H
