

Stainless Steel Countertop Pump Dispensers w/ Stainless Steel Pumps

Serve your condiments efficiently with ServSense™ 2 qt. stainless steel countertop condiment dispensers with stainless steel pumps. These heavy-duty units feature a stainless steel body and pump for durability, and non-skid feet for stability on your countertop. The brushed finish on the 304 stainless steel body hides fingerprints and wear, which provides a professional presentation.

Each pump has a portion control collar that allows for dispensing of $\frac{1}{3}$ oz., $\frac{2}{3}$ oz., or 1 oz. portions. With metered dispensing of thin condiments, sauces, and syrups, these ServSense™ pumps reduce wasted product through precise portioning. ServSense™ pumps are a professional solution for your establishment, designed for high volume use. These units include plastic fountain jars, food safe lube, a wire brush, and a flexible brush. All you need are the condiments!

651PDS2QT1S
