The Shortening Shuttle®

Top Handle Kit (part # SS-611-THK & SS-709-THK)

for all series SS-611 & series SS-709 Shortening Shuttles®

Installation

<u>CAUTION</u>: Read these instructions carefully before using to insure safe operation.

Shortening Shuttle® Top Handle Kits

Parts List for series SS-611:

1 pc WH125750, 7.8" Medium Handle

1 pc 8.5" Carriage Bolt 2 pcs Retainer Cap2 1 pc 3/8" Flange Nut

Parts List for series SS-709:

1 pc WH125565, 11.3" Long Handle

1 pc 12" Carriage Bolt 2 pcs Retainer Cap2 1 pc 3/8" Flange Nut

Installation

The Top Handle is a very important part of the *Shortening Shuttle*[®]. It prevents excessive heat transfer from the Shuttle Body to the operator and must be installed for safe operation of the *Shortening Shuttle*[®].

Install the Top Handle as shown in *figure 1* by positioning the Top Handle in place (please be carefull that the end washers stay in place) and then sliding the carriage bolt through the square hole in the Shuttle, through the Handle & end washers and then through the other square hole in the Shuttle. Install the Lock nut and firmly tighten the Lock Nut.

Installation is now complete. There is a spare parts list on the back page of this pamphlet so that you may keep your *Shortening Shuttle*® in proper working order.

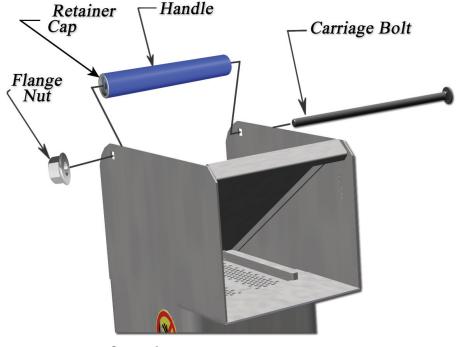

figure 1

CAUTIONS

Never use the *Shortening Shuttle*® without the baffle screen in place. The baffle screen prevents hot shortening from splashing out of the *Shortening Shuttle*® due to excessive jostling and/or the accidental dropping of the unit while containing liquids.

Never pour any caustic cleaning solutions inside or on the outside of the *Shortening Shuttle*[®]. This action can cause damage to the unit's structural integrity.

Always use appropriate Safety Apparel when operating the Shortening Shuttle®
