

Stainless Steel Transport Covers

Steps

Before first use and in between uses, thoroughly wash and dry the cover.

To Apply Cover:

1. Fill compatible Vigor pan with product. Do not fill pan higher than 1" below the top of the pan.
2. Unplug the vent closure to allow air to escape.
3. Place the cover onto the pan fully horizontal. If placed at an angle, the cover will not be as secure and may cause leakage.
4. Press the cover onto the pan until the edges of the cover and pan are tight.
5. Resecure the vent closure on the top of the cover.

To Remove Lid:

1. Unplug the vent closure to release pressure.
2. Gently lift off the cover using the handle.

NOTE: These covers are only intended to work on Vigor stainless steel hotel pans of the compatible size.

Transport Cover	Size	Compatible Vigor Pan
24711SSTGL	Full Size	24711422, 24711622
