

Translucent Plastic Food Pans

Prep, store, transfer, and serve

Made of polypropylene, these translucent food pans provide your kitchen with an ideal way to prep, store, transport, and serve food items. Use these food pans for storage in your walk-in or place them directly in your prep tables or salad bars.

Design

- Chemical- and stain-resistant.
- Can withstand a temperature range of -40°F to 160°F (-40°C to 70°C).
- Curved bottom corners allow contents to be easily removed and limit waste.
- Reinforced corners made to withstand kitchen wear and tear.

Convenient Measurements

- Capacity indicators allow for easy inventory management.
- Standard and metric graduations are included.

Stackable

- When not in use, food pans are stackable to save storage space.
- Pair containers with compatible lids to stack filled containers when in use.

Accessories Available

- Pair with a compatible drain tray and lid (sold separately).
- Drain trays keep food from resting in liquids to help maintain freshness.
- Various lid styles are available depending on desired use. Seal lids help maintain freshness longer and reduce spills. Handled lids are ideal for quick storage to keep contaminants out.
