

Vietnamese Coffee Press

176VPSS4

Assembly Instructions

176VPSS4

A Phin Filter Plate & Chamber

B Cap

C Gravity Press

INSTRUCTIONS

1. Place the phin filter plate & chamber (A) on top of a mug.
2. Add 2 tablespoons of medium- to fine-grind sized coffee into the phin filter plate & chamber.
3. Place the gravity press (C) on top of the coffee grounds.
4. Pour 1oz of hot water (approximately 1/2 inch above the press).
5. Let the coffee grounds sit for 60 seconds to bloom your coffee.
6. Fill the chamber to the top with hot water.
7. Cover the brew chamber with the cap (B) to retain heat.

NOTE: The first drip should start within 2 minutes and the last drip should finish within 5 minutes.

8. Remove the phin filter plate & chamber from the mug.
9. Your coffee is ready! Customize with additional ingredients and enjoy!
