

CLEAR BOWL SERIES

*PUT YOUR BEST
DRINK FORWARD.*

These Frozen Beverage Dispensers stand out to customers, which will clearly drive sales and maximize profits for your business.

Multi-use Dispensers

From fruit smoothies and iced coffee to slushes and specialty cocktails, frozen beverages and chilled drinks are hot sellers from sunup to past sundown.

Alcohol can easily be added directly into the hopper, unlike other units that need to add it as product is dispensed.

Sized for Your Business

Full range of capacities to suit your drink volume and maximize drink menu flexibility; dispense different beverages or flavors from one machine.

Create or Expand a Drink Menu

Ideally suited for attended serving stations in bars and cafes; as well as self-serve stations in hotels, family entertainment centers and convenience stores.

Efficient Merchandiser

Horizontal and vertical auger design mixes a homogenous beverage every time and continuously presents the beverage toward the user. LED Lighting located in hopper cover draws attention.

Easy to Operate

Easy to program, use and maintain by all skill levels. Includes temperature and low-level indicators, night model and diagnostics for troubleshooting.

Low Maintenance

Seal-less design eliminates the cost and down time of preventative seal maintenance.
