01 TECHNICAL SPECIFICATIONS	3
02 INSTALLATION	3
03 OPERATION	4
04 ORDINARY MAINTENANCE	6
05 SPECIAL MAINTENANCE	8
06 LIST OF SPARE PARTS	9

Congratulations on the purchase of this exclusive Made in Italy device. You chose the equipment that combines the best technical qualities with maximum ease of use. We wish you the greatest satisfaction.

Note:

This manual is printed in three different languages. Original instructions in Italian and translations of the original instructions in English and French.

For better clarity and reading this manual, it could be provided in several separate parts and can be sent by mail by contacting the Manufacturer.

WARRANTY

Standards and rules

Warranty only covers the replacement free to factory of pieces eventually broken or damaged because of faulty materials or manufacture.

Warranty does not cover any damages caused by third party transport or due to incorrect installation or maintenance, to carelessness or negligence in usage, or to tampering by a third party.

Moreover, warranty does not cover: glass components, covers, bulbs, refractory surfaces, the seals and whatever depends on normal wear and deterioration of both oven and accessories; nor does it cover labour costs involved in replacing pieces covered by warranty.

Warranty ends in case of non-compliance with payments and for any elements that may be repaired, modified or disassembled, even in part, without prior written consent. For technical service during the warranty period, please send a written request to the local concessionary agent or directly to the Sales Department.

WARNING

This word indicates a danger, and will be employed every time the safety of the operator might be involved.

NOTE

This word indicates the need for caution, and will be employed to call attention to operations of primary importance for correct and long-term operation of the oven.

DEAR CUSTOMER

Before using the appliance, please read this user manual.

For the safety of the operator, the appliance safety devices should always be maintained in a proper state of efficiency.

This user manual intends to illustrate use and maintenance of the appliance. For this reason, the operator is advised to follow the instructions given below.

The manufacturer reserves the right to make improvements to the product and manual, without necessarily updating existing products and manuals.

WARNING!

1. The following instructions are provided for your safety.
2. Please read them carefully before installing and using the appliance.
3. Keep this user manual in a safe place for future consultation by the operators.
4. Installation must be carried out in accordance with the Manufacturer's instructions by qualified and licensed staff.
5. This oven must only be employed for the purposes for which it was designed, that is to say to cook pizza or similar food products. This appliance is intended to be used for commercial applications, for example in kitchens of restaurants, canteens, hospitals and in commercial enterprises such as bakeries, butcheries, etc., but not for continuous mass production of food. It is prohibited to bake products containing alcohol. Any other use can be classed as improper.
6. The appliance is for institutional use only, and must only be operated by a qualified professional user who has been trained to use it. The appliance is not intended for use by people (including children) with reduced physical, sensory or mental capabilities or who lack experience or training. Children should be supervised to ensure that they do not play with the appliance.
7. When carrying out repairs, always contact one of the Manufacturer's authorised service centres and request that original spare parts be used.
8. In the event of breakdown or malfunction always disconnect the appliance, and do not attempt to make adjustments or repairs yourself.
9. Failure to comply with the above may compromise the safety of the appliance.
10. Should the appliance be sold or transferred to another owner, or should the current owner change his premises and wish to leave the appliance installed, always ensure that this manual remains with the appliance, so that it can be consulted by the new owner and/or the person carrying out installation.
11. In the interests of risk prevention, if the connection cable is damaged in any way, it must be replaced by a technical assistance service approved by the manufacturer.
12. During installation, should there be any disturbance to equipment sharing the same power supply source, make sure that the impedance is suitable at the interface point and that the service current capacity is correctly sized for appliance emissions to conform to EN 61000-3-11 and EN 61000-3-12 standards and subsequent modifications.
