

ZENIUS CLEANING INSTRUCTIONS

END OF DAY

1 Clean brew head with machine on by gently pulling handle down without inserting a capsule. Place cup under brew head and press any coffee button to run water through machine. If necessary, repeat until water runs clear.

2 Empty and clean used-capsule container and place back into the machine. Make sure to recycle used capsules using a **Nespresso** UPS recycling bag.

3 Remove drip tray and grids, rinse with water and dry with a cloth. If necessary, use a small brush and dish soap to clean residual coffee traces. Place back into the machine.

4 Clean machine surface with a soft cloth.
