Product features:

Housing made of **ABS plastic material**.

Pad inlay consisting of 2 layers:

- **top layer made of a special developed textile fleece** material which distributes colour perfectly and evenly to the surface and keeps permanently the right amount of ink at the upper surface of the pad
- **lower layer made of special needled fleece** which stores the ink in an optimal way (even when the pad is going to run out of ink)

Ink:

- Trodat ink 7012 ink = high quality water based ink with glycerin/glycol, providing excellent features in all climatic conditions for an excellent impression:
 - crisp imprint and sharp impressions
 - even ink distribution to the stamp
 - rich ink coverage (deep black, deep blue etc.)

Product details / packaging:

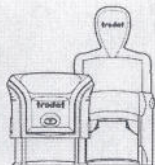

- packed in single cardboard box

Hazards identification:

- no special hazards

First aid measures:

- after contact with skin: wash with soap and plenty of water

DATA SHEET_trodat®

- after contact with eyes: rinse thoroughly with plenty of water and seek medical advice
- after ingestion: drink plenty of water

Handling and storage:

- Advice on protection against fire and explosion: No special measures required
- Storage: Keep container tightly closed

Exposure controls / personel protection:

- Hand protection: no special measures required
- Eye protection: no special measures required

Stability and reactivity:

- Stable at conventional use, none harmful reactions known

Toxicological information:

- non toxic, free of heavy metals

Disposal considerations:

- Disposal in accordance with the regulations of the local authorities, as office waste.

Transport information:

- non-hazardous goods

Other information:

This information is based on our present state of knowledge.

It should not therefore be construed as guaranteeing specific properties of the products described or their suitability for a particular application.

Existing regulations and country-specific laws have to be proofed by the purchaser in own responsibility.
