FEATURES & BENEFITS

- Microbial package combined with green chemistry causes less issues down stream
- Microbes aid in digesting organic material before they travel down stream to cause further upsets
- High count non-pathogenic microbial package continues to disintegrate the organic matter left behind far after surface soils have been cleaned
- Assists in a total odor control solution that gets rid of malodors at their source
- Can be used in many manufacturing degreasing type applications including transit systems, manufacturing houses, engine rooms, bilges, holding tanks, and anywhere traditional degreasers have been used
- Will rival any traditional degreaser with the added advantages of the microbial package
