OPERATES ANYWHERE
The EQB-I operates anywhere with a rechargeable battery (24Hrs, approx.) Power supply adapter

PC COMMUNICATION FUNCTION
Includes PC or printer interface through RS-232 serial port

EASY TO READ DISPLAY
Just place the product on the platter and instantaneously read the weight on the display. Saves time and money.

HEAVY DUTY USE:
It features a central top that prevents damages in the load cell by accidental overloads, which is complemented with the 4 tops at the corners to protect the scale against impacts.

Kg / Lb
Toggles between Kg & lb

SECURITY LIDS

The operator does not have access to any function of the PI.

In continuous processes it avoids that the indicator goes OFF accidentally. There is no access to the OFF and ON keys, operator can use only the Backlight, tare, zero and units keys. The programming keys are totally covered.

It avoids the manipulation of the configuration menu and leaves uncovered the keys: OFF, ON, backlight, tare, zero and units.
