## PART NO. 274101, POWER LIFTKAR HD TRUCK

- Three Models

**Uni** - straight frame - accepts dolly option for 4-wheel support.

**Fold** - upper handle angle can be adjusted. Best for copiers, safes, heavy motors or any short and heavy load. User to pull the load back to a very low position. The adjustable angle position on the Fold model allows the user to use the truck at a very low angle.

**Extended Fold** - Same advantages as **Fold** but with an extra 7" in height and fold-out wheel carriage.

- Innovative edge-of-step braking system - automatically applies brake when wheels are at edge of step. Helps control caused by accidental rolling down steps.
- Brake can be shut off for use on level ground - prevents unwanted braking when moving over ground with uneven surfaces.
- Two operating modes: single step (ascend or descend button must be pressed after each step - ideal for continuous climb).
- 24 V quick-change battery pack - sealed maintenance-free battery.
- Battery, charger and 137" x 2" cargo belt included.

- 21" W x 7.25" D noseplate. Additional sizes available, contact Wesco® Customer Service.
- Two climbing speeds: 6 steps/min. or 10 steps/min.
- Average number of steps with fully charged battery:

440 lbs. of cargo - 220 steps

550 lbs. of cargo - 190 steps

725 lbs. of cargo - 120 steps.

- Maximum stair height 8.25".
- 1 year warranty on parts against defects in materials and workmanship.
- 6 month warranty on battery.
