# ENVISION ULTRA STACK

High Capacity I Beverage Merchandiser

#### CONTOURED SIGNFACE

The main advertising display boasts a large curved face to enhance visibility, aesthetics, and readability from multiple angles.

#### FLAVOR CARD OR LIVE DISPLAY

The operator has the option of displaying either a flavor card or live product.

#### LARGE SELECTION BUTTONS

The user interface features large selection buttons for easy navigation and enhanced accessibility.

#### STACK HIGH CAPACITY

The beverage stacking method is the most common that allows for maximum flexibility during product loading.

#### HIGH EFFICIENCY REFRIGERATION

The energy efficient R-290 refrigeration system is a cutting-edge technology designed to provide exceptional cooling performance while minimizing energy consumption and environmental impact.

#### LED LIGHTING

Bright, long-lasting illumination while consuming significantly less power than traditional lighting sources.

#### LED DISPLAY

High-definition, energy-efficient visual screen that produce vibrant, sharp images.

#### BILL ACCEPTOR

Efficiently processes various denominations while ensuring accuracy and security.

#### CREDIT/DEBIT & MOBILE PAYMENT SYSTEM (OPTIONAL)

Make electronic transactions using smartphones or a mobile device, allowing to swiftly and effortlessly pay for goods.

#### CUSTOM GRAPHICS

Custom designed visual elements, such as logos, illustrations, or other visual assets, tailored to a specific brand.
