

Dough Rings

Compatible with DM, DMS, & D-TX Series presses

The doughXpress® Dough Rings are a way to change crust size with ease. These easy slide on rings reduce the lower platen (standard 18") to a 10", 12" or 14" crust size. These rings are compatible with any of our doughXpress round lower platens. This includes the DM, DMS, and D-TX series equipment.
