

# Edlund Model 395 Electric Knife Sharpener

Our new electric knife sharpener provides results similar to a professional knife sharpening service. With new safety features and a precise guidance system built-in, there's no easier way to get professional sharpening results as often as you need them. Now when it comes to controlling kitchen costs, maybe you won't need to sharpen your pencil as much.

- Lighted rocker switch indicates when motor is running.
- The width of the knife slot has been reduced to  $\frac{3}{16}$  of an inch for additional safety.
- Knife guides allow knife heel to be inserted closer to the grinding stone to maximize sharpened area on blade.
- Our precise guidance system consistently provides excellent sharpening results.
- ABS plastic knife guides for easier cleaning, ease of operation.
- Stainless steel case.

# The easiest way to keep your kitchen skills sharp.

Professional quality unit is built to last. Proven and reliable motor and replacement stone will provide years of precise sharpening of practically any knife – from  $\frac{3}{16}$  of an inch knives to cleaver blades.

Just a few passes through our precision guidance system will help maintain a perfect edge. There are no magnets that can eventually magnetize the blade and contaminate food with metal shavings.

Black ABS guidance assembly helps provide clear indication when cleaning is necessary. Safety and sanitation are built right in.
