

Fast & Effective, Welding made simple

The Campbell Hausfeld 115-volt stick welder (WS099098AV) is designed for home and shop applications. Easy to use and portable, this welder has a transformer design that provides an easy-starting, smooth arc. Weld with 1/16-inch electrodes on a 15-amp household circuit; a 20-amp circuit is required for welding with 5/64-inch electrodes. Thermal overload protection activates automatically to avoid overheating. Includes hammer/brush, starter pack of electrodes and hand shield. Duty cycle: 20% @ 50A, 10% @ 70A. Weld and ground cable length: 6 feet.

ACCESSORIES INCLUDED

- Hand Held Welding Face Shield
- Electrode StarterPack
- Hammer / Brush
- 1 pair Welding Gloves

Great for welding projects around your home or shop. Operates on a regular household outlet.

• Versatile Design

Welds mild and stainless steel from 18ga. to 1/8 in.

• Dual Heat Setting

Preset for 1/16 in. or 5/64 in. welding rods

• Thermal Overload

Protects the welder by automatically shutting off when duty cycle is exceeded

• Convenient

Designed to be used on standard 120V household current

Specifications

Model	WS099098AV
Input	115 Volt 20 Amp
Output	70 Amps AC
Duty Cycle	10% @ 70 Amps
Unit Weight	23 lbs.
Carton Size	375mm x 320mm x 533.5mm
UPC	045564643744
