

Viking Bowl and Mechanical Timer Valve

Viking's best-known dispensers

The Viking Bowl is perfect for high- and low-temperature dish machine applications when coupled with a Pro Series dispenser like the Pro III. It will feed encapsulated powder or solid products. When used with a mechanical timer valve, it is a perfect combination for pot and pan sinks, top loader laundry machines, floor care products, and many other screen-feed powder or solid dispensing applications.

Bowl & Timer in a grocery store feeding solid pot and pan product to a three-compartment sink

The Viking Bowl Dispensing System

The Viking Bowl is ideal for dispensing screen-feed powder or solid products in a variety of applications. When used with a Pro Dispenser, it is great for low- and high-temperature dish machines. The bowl can be used with a mechanical timer to dispense pot and pan soap, silver soak, floor care and laundry chemicals, and any other screen-feed or solid products that need dispensing on demand.

Viking Dispensing Systems Sales Sheet

System	Information and Specifications
Viking Bowl	Holds a 6-inch jug with a standard 100mm neck finish. Comes with complete installation hardware. Optional: Red, Blue, custom colors, dish machine mounting hardware, private logo, 5" ring adapter, hang-up nozzle, bulk powder adapter.
Mechanical Timer Valve	Controls water flow to a Viking Bowl with an adjustable run time of 10-60 seconds. New internal filter. Mounting hardware included.
Screen Cap	For detergent manufacturers; available in two different mesh sizes, available in threaded or locking finish, fits a standard 100mm neck finish or a unique locking neck finish that provides added end user safety and faster filling time. Allows powdered products to be dispensed through a Viking Bowl. Prevents undissolved pieces of solid products from draining out of a Viking Bowl with the dissolved product. Optional: Barrier paper in sleeves of 2500 pieces.
Solid Rinse Dispenser	Reservoir mounted under the bowl allows for the use of solid rinse products. Float switch maintains level in reservoir, side-mounted solenoid is wired into an electronic dispenser. 8 oz. reservoir volume. Comes with fitting for 1/8" supply tubing and 1/4" supply tubing.
Bulk Powder Adapter	Reusable hopper for using bulk powder in the Viking Bowl dispenser. Stainless steel screen. Safety cone at top prevents accidental exposure to wetted powder.
5-Inch Ring Adapter	When installed in a Viking Bowl, a 5-inch diameter jug may be used provided it has the 100mm neck finish.
Hang-Up Nozzle	Accessory for the Viking Bowl. When installed, the unit allows for the supply tubing to be hung up on the Viking Bowl to prevent the spilling or waste of product. Perfect for floor care product bucket-filling applications.
