

MINIMIZE RISK OF **ALLERGENS** THROUGH PERSONALIZATION

Create separate storage areas for allergen and gluten-free ingredients.

Clearly identify Allergen-Free storage containers stored in dry storage and coolers.

Meet your customers' needs, gain more loyal customers, and improve brand reputation by incorporating allergen-free options into your menu.

Both food allergies and foodborne contamination can lead to serious and, in some cases, life-threatening illness. Taking safety precautions by incorporating Allergen Management into your operation goes hand-in-hand with implementing food safety practices.

Foodservice operators can minimize food allergy risks by incorporating Allergen

Management through personalization and color coding. Cambro offers custom personalization and/or color coding on various products for storage and preparation so that you and your staff can easily identify ingredients free of the Dangerous Eight and other allergens.

The Dangerous Eight Include

Tree Nuts

Peanuts

Shellfish

Fin Fish

Milk

Eggs

Wheat

Soy

TIP

Separate food before and after preparing menu options to create allergy-free foods, as well as to avoid cross-contamination during storage, preparation and cooking.

Storage Containers

Designate Allergen-Free ingredients using Camsquare food storage containers. These personalized containers include easy-to-identify purple graduations and Allergen-Free imprint on the opposite side.

- Purple Seal covers feature an inner and outer seal to help keep ingredients safe from cross-contamination, even during transport.

Allergen 6qt. Container: 6SFSCW441
Lid: SFC6SCPP441

Measuring Cups

Keeping separate Allergen-Free, color coded measuring cups in your kitchen can reduce the risk of cross-contact and accidental exposure to allergens during the preparation process.

- Externally marked purple graduations and Allergen-Free logo are imprinted in Allergen purple for easy identification.

100MCCW441

Dissolvable StoreSafe® Allergen-Free Labels

Take safety precautions by incorporating Allergen Management into your foodservice operation with Allergen-Free dissolvable labels. These labels help minimize risk by identifying ingredients and foods that are free of specified allergens.

- 100% Dissolvable 2" x 3" Allergen-Free Labels.
- Label and adhesive dissolve in less than 30 seconds under running water.
- Leaves behind no adhesive residue.
- Eliminates the time spent scrubbing off labels and adhesives from storage containers.

23SLB250AF

Cafeteria Trays

Protect your students or employees from the risk of allergenic foods by keeping color coded Allergen-Free trays on hand. Flag their meal orders with StoreSafe Allergen-Free Labels that indicate both their name and what each tray is free of (for instance, "no gluten", "no dairy", "no peanuts").

1418 Camtray
551 (Grape)

Ingredient Bins

Store bulk ingredients such as rice flour and potato starch in a personalized Allergen-Free ingredient bin. The Allergen-Free logo helps prevent cross-contamination from standard dried goods and allows for quick identification.
