Auto Serve Stand. Model: 3070190, UPC: 768528070188 (Sold separately)

Pro Deluxe Butter Warming Pump. Model: 2028B, UPC: 768528202824 (Sold separately)

Styled with an industrial, all stainless steel contemporary flair, the full featured machine pops delicious, theater-quality popcorn in 3-5 minutes, is easy to use and easy to maintain. This popcorn machine creates 147 one ounce servings per hour for maximum output, and its spring-assisted kettle makes it easy to unload popcorn when it's done cooking. Its two-switch operation powers the machine, the lights and heat the kettle with two simple clicks. The aerated warming deck keeps your food warm while catching kernels and smaller bits for easy cleaning.

Paragon's Auto-Serve Popcorn Machine provides a new innovation for popcorn lovers to conveniently dispense their own popcorn in a touchless environment. For the popcorn vendors, it's as simple as popping corn, locking the cabinet and ensuring popcorn cups are available for their customers to hygienically vend their own popcorn and even pump their own butter. The customer holds the popcorn cup under the chute and pushes a button to dispense their own popcorn. The Auto-Serve is the perfect popcorn machine for convenience stores, movie theaters, retail, grocery stores, bars, restaurants, schools, other events and beyond!

Auto-Serve 8 Ounce Popcorn Machine is available in a front service access, meaning the doors open on the same side as the dispense chute (#1108180) and back service access meaning the doors are on the backside of the dispense chute (#1108190). This custom door feature comes into importance provides the retailer the option of placing the unit against a wall and thus requiring the serve access to be the front of the unit.

Model #3070190 (sold separately) is an integration stand that is designed specifically for the self-serve popper incorporation both form and function. The popper and stand can be paired with a butter warmer to further expand the self-service offering.
