Notes & Details

Serve milkshakes and frozen beverages in style with this AvaMix RDM1SF drink mixer. Boasting a stylish retro design with a powder-coated seafoam finish, this drink mixer is sure to delight your customers. It's constructed from durable steel for long-lasting performance and has a sturdy base to keep your mixer securely in place. It also features a double agitator to help you get the job done effectively and quickly. Designed for versatility, it's great for whipping up classic malt milkshakes and European-style frappes. This unit can handle light, crushed mix-ins.

A 30 oz. malt cup made of stainless steel is included. Not only is it durable and easy to clean, but it keeps the beverage cold as it's prepared. It also boasts a one-piece design, meaning that it won't leak at the base like other malt cups. Plus, markings on the cup show the minimum and maximum fill lines for easy use.

Along with a robust 350W motor, the single spindle works to smoothly combine all of your milkshake ingredients. Plus, the unit offers hands-free use when the cup is in position, allowing staff to tend to other needs when a drink is mixing. This drink mixer is easy to use with a convenient rocker switch for on, off, and pulse. The pulse button delivers a burst of high-speed power to make mixing even quicker and easier. This 2-speed, 1/2 hp mixer operates from 10,000-20,000 RPM, providing the power and control needed to achieve the perfect consistency in every drink. It requires a 120V connection to operate. Ideal for any ice cream shop, diner, or restaurant, this drink mixer provides an easy way to grow and diversify your menu!
