Notes & Details

Expertly cook pancakes, burgers, eggs, grilled cheese, and all of your customers' favorites with this Avantco EG16N 16" electric countertop griddle. The 1/2" thick steel cooking surface heats evenly throughout for consistent cooking results no matter where you place food on the griddle plate. A single thermostat knob controls the temperature, which is adjustable from 150-570 degrees Fahrenheit. With overheat protection, power on / heating indicator lights, and 3" steel splashguards on the sides and back, the Avantco electric countertop griddle is as safe to use as it is powerful and effective.

Thanks to its 15 1/2" x 16" griddle plate, this unit is built for high-volume commercial use. The heavy duty stainless steel housing and 3 15/16" to 5 15/16" adjustable stainless steel feet provide durability, while the easy to remove grease tray allows for quick, hassle-free cleaning.

This Avantco electric griddle requires a 120V electrical connection for operation.

This model replaces the Avantco EG16 electric countertop griddle.
