Notes & Details

Keep your steamy vegetables, plump hot dogs, fluffy eggs, or sizzling bacon hot, safe, and ready to plate with this Avantco FW200D 12" x 20" full size dual well electric countertop food warmer. Thanks to its specially designed internal heating elements, this unit holds your prepared foods at food-safe temperatures for several hours at a time. Whether you operate a busy buffet line, concession stand, or self-serve station, this 2,000W warmer (1,000W per well) offers the functionality and versatility needed to always provide fresh-tasting products! Plus, two wells can hold twice the amount of food, which gives you the flexibility to warm a variety of different foods or meals at different temperatures simultaneously.

Thanks to its industry-leading 8" well depth, this unit can fit (1) 12" x 20" full size, (2) 1/2 size, or (3) 1/3 size food pans that are 6" deep in each well at once, which allows you to keep a variety of different foods warm simultaneously, making food prep a whole lot easier! For ultimate versatility, it also features a temperature range of 120-212 degrees Fahrenheit. The independent thermostatic control dials allow you to customize your heat output for each well with settings ranging from 0 to 10. The indicator light even lets you tell if the warmer is turned on at a glance. This unit offers a quick and effective way to keep the products that your guests love most warm and ready to eat!

This 12" x 20" dual well countertop food warmer is both light weight and portable, making it an ideal solution for food trucks or caterers who are always on the go to their next event. It boasts a sturdy stainless steel water well that is sure to withstand the wear and tear of constant use. Each well is fully insulated so heat stays inside the unit, warming your food and lowering your electricity use. Additionally, the interior is lined with corrosion-resistant 18 gauge stainless steel to make cleaning an effortless task. This unit requires a 120V electrical connection for operation.
