Notes & Details

Efficiently cook a variety of your signature dishes with the Avantco double induction range. Induction ranges are perfect for creating omelets, stir fry, and pasta stations at your hotel breakfast bar, buffet, or catered event. Great for front-of-the-house display cooking and light-duty use, this drop-in induction range eliminates the need for open flames and helps reduce the amount of heat in the room for a safer, more comfortable cooking environment. Plus, this range boasts 2 burners and a sleek, versatile design that can be used as either a drop-in or countertop unit to provide a professional look that will impress your guests no matter the occasion.

The integrated touch controls make the unit simple to operate, and the large LED display clearly shows important information while you cook. The digital temperature controls let you cook using a wattage-based "power level" mode, and a convenient timer lets you set a countdown between 1 and 99 minutes. Compatible with induction-ready pans that have a bottom diameter between 4 3/4" and 10 1/4", you can use small and medium induction-ready cookware in your establishment.

This induction range features a total of 1800W of heating power in a compact and convenient footprint that sits flush with your countertop for easy use. Thanks to the electronic overheating protection, you can be sure your staff works safely and efficiently to create made-to-order meals at your hotel or catered event. This unit requires a 120V electrical connection.
