Size	Dual	

Notes & Details

Create your most popular sandwiches, quesadillas, hamburgers, and more with the Avantco PG400GST dual panini sandwich grill with timer, grooved top and smooth bottom plates, and $195/8" \times 91/8"$ cooking surface! This sandwich grill features 3500 watts of heating power for fast and thorough cooking as well as a timer. The $81/2" \times 81/2"$ top grooved grill plates provide tantalizing grill marks for an excellent presentation, and its $195/8" \times 91/8"$ smooth bottom plate ensures complete contact with your product and a consistent, even heat supply. In addition, specialized hinges allow the top plate to lay flat against the food rather than at an angle, ensuring complete contact and uniform cooking, and handles on the sides make the unit safe and easy to carry.

To ensure consistency, the thermostatic controls allow you to adjust the temperature of the grill to accommodate the appropriate cooking temperatures for different foods. The temperature is easily adjustable from 120 to 570 degrees Fahrenheit to cook or warm a wide variety of foods, while the stainless steel exterior and cast iron plates ensure long-lasting durability and strength. And thanks to the included drip tray, cleaning up is a breeze after every use. This unit is supplied with 2 plugs and must be operated using 2 separate 120V circuits, therefore must have separate outlets dedicated to each plug. It also features a 4' power cord.
