## **Notes & Details**

Sure to become the new hot-shot in your kitchen, concession stand, or convenience store, this Avantco QuickShot tortilla / portion steamer is an impressive countertop unit. In a convenient, compact footprint, this unit does everything from steaming tortillas or cooking an egg to reheating pre-cooked food for quick service. Such versatility proves invaluable in facilities with limited space. This unit boasts 3,300W of power and blasts a powerful burst of steam of steam with the touch of a button. The digital controls are intuitive and simple to maneuver, including 4 programmable quick-select buttons that allow you to decide on the steam time and the length and interval of the steam burst. Because this unit preheats in 15 minutes, it's easy to turn on prior to opening and have ready for the first rush of customers.

To accommodate steaming and reheating, the unit's spatula-style drawer fits a half-size 2 1/2" deep hotel pan (sold separately). It uses an independent 3 qt. self-contained water reservoir for its steaming function, making it easy to fill and maintain throughout the day. With a top-down, pre-seasoned cast aluminum heat generator, this unit delivers intense, efficient steam to deliver consistent and high-quality results every time. The steamer's stainless steel and anodized aluminum construction ensures durability in virtually any commercial space. It comes with a 70 7/8" cord and requires a 208V electrical connection for operation.
