ETL Sanitation

## Technical Data

Lid Type	Hinged
Plug Type	NEMA 5-15P
Power Type	Electric
Type	Warmers

## Notes & Details

Keep your top-quality, delicious rice warm and ready to serve with this Avantco woodgrain electric rice warmer! Boasting 103W of power, this reliable unit can hold up to 60 cups of cooked rice, allowing you to keep a large amount of ready-made rice at an ideal serving temperature for up to 12 hours. In addition to rice, this versatile unit can be used to keep grits, oatmeal, macaroni and cheese, and other foods warm, making it an excellent addition to any commercial establishment. Plus, the included rice paddle allows you to efficiently mix, scoop, and serve your rice while preserving its consistency.

Featuring an outer housing that boasts an attractive woodgrain finish, this unit offers long-lasting durability and a sleek, professional appearance. A removable, non-stick aluminum interior pot ensures your rice evenly maintains the perfect temperature while also making it easy to clean at the end of the day. Plus, both the rice pot and body are dent-resistant to stand up to the rigors of any commercial kitchen. Thanks to its two sturdy handles, this rice warmer is easy to transport to wherever is most convenient for your business. A tightly sealed hinged lid locks in moisture and retains heat for maximum efficiency, ensuring your rice maintains its light, fluffy texture and is always ready to serve. The lid includes a built-in condensate collector trap for excess water. This rice warmer requires a 120V electrical connection.
