Notes & Details

Outfit your restaurant or catering service with this Avantco S30 11 qt. black soup kettle warmer! This kettle features an 11 qt. capacity so you can hold large quantities of soup at a time. With 400W of heating power, this soup warmer is great for keeping your soups and sauces at the perfect serving temperature from 100-212 degrees Fahrenheit. The thermostatic control dial makes it easy to control the heat inside the kettle, while the hinged lid features a knob so it can be easily opened by your staff or customers. Also, the two sets of included soup labels make it clear to your customers what you're selling. An stainless steel inner liner and stainless steel pot ensure long-lasting durability, and thanks to its neutral color, you can be sure this kettle will complement your business's decor while providing quality products to your valued customers.
