Notes & Details

Cook protein, finish off an entree, melt cheese on nachos or french onion soup, toast bread, or caramelize creme brulee with this Avantco SAL23M 23" electric countertop salamander! This salamander's compact and versatile design is perfect for your high volume restaurant or bar. Since this model has a 23 1/4" x 12 1/2" cooking area and an adjustable 2 1/4" to 7 3/4" cooking clearance, it can accept a large variety of pan and plate sizes for appetizers, signature dishes, or desserts. Also, the adjustable upper housing has laser engraved height markings from 1-5 on the back wall for dependable, consistent cooking results. Cool touch bakelite handles make it easy to adjust the position of the elements and cooking tray.

This salamander is made of heavy-duty stainless steel for greater durability in fast-paced kitchens. The polished reflectors on the upper housing help to reflect heat toward the cooking area, ensuring food is properly cooked and kept warm while waiting to be served to customers. Two independently controlled heating elements include sets of infinite controls that are easy to use, providing ideal control heating cycles, and creating the perfect outcome for every individual dish. It has 2 separate 15 minute audible timers to help ensure consistent cooking results for different dishes.

A stainless steel removable drip tray and a cooking grate are included to make cleaning as easy as possible and to add versatility to the uses of this salamander. Add a cast iron griddle (sold separately) for even more options! Non-slip rubber feet ensure the salamander will stay stable on your countertop. This model requires a 208/240V, 3450/4000W electrical connection for operation and includes a 55 1/8" power cord.
